Profile

I am a **Computer Science student** with a strong foundation in front-end development and a passion for building clean, maintainable, and optimized web solutions. I am proficient in **HTML, CSS, JavaScript (ES6+), React, Vue.js, Tailwind CSS, Bootstrap, Firebase and Flowbite**.

I am eager to contribute to a collaborative team environment and continuously expand my expertise in React to develop more scalable and high-performance web applications. I am also actively seeking front-end development opportunities, where I can apply my skills to create engaging and user-friendly digital experiences.

Technical & Software Skills

- **Front-End Development:** Proficient in **HTML, CSS, JavaScript (ES6+), React.js, Tailwind CSS, and jQuery**.
- **CSS Frameworks:** Experienced with **Tailwind CSS** and **Bootstrap** for efficient styling and responsive design.
- **Responsive Web Design:** Skilled in creating **mobile-first** and **cross-browser compatible** web applications.
- **Version Control:** Familiar with **Git** and **GitHub** for efficient code management and collaboration.
- **UI/UX Design:** Strong understanding of **design principles** and prototyping using **Figma**.

Education & Qualifications

Police Children School Ado-Ekiti, Ekiti-State, Nigeria.

2010-2018

Primary School Certificate.

Christ Foundation Advanced School Ado-Ekiti, Ekiti-State, Nigeria.

2018- 2021

Junior Secondary School Certificate.

Ekiti State Government College Ado-Ekiti, Ekiti-State, Nigeria.

2021- 2024

Senior Secondary School Certificate.

Achievers University, Owo, Ondo-State.

2024-2028

Bsc. Computer Science

Projects

FLink Demo Web App

This web app contains a full responsive landing page and a dashboard for those who signed up. The dashboard helps farmers keep inventory, read blog messages by admins, send messages to each other and check graphical representation of time. It is fully responsive. I used technologies such as HTML, CSS, JavaScript, React JS, Tailwind CSS, Framer Motion(for animations), Firebase(for Backend authentications, data fetching and real time communications).

Github: <https://github.com/Dev-Noble-coder/FLink.git>

Tech Hub Website

I developed a tech hub website using React JS, HTML, CSS, JavaScript to make an interactive website to practice my proficiency in React JS.

Live Link: <https://tech-hub-demo.vercel.app/>

Github: <https://github.com/Dev-Noble-coder/tech-hub-demo.git>

Pension Application Portal

I developed a pension application portal using front-end technologies such as HTML, CSS, JavaScript. Users can either create an account or log in to their accounts. The database and backend authentications was handled by Firebase.

Github: <https://github.com/Dev-Noble-coder/pension-portal.git>

A Web Designer Portfolio

I developed a portfolio for a web designer and I used front-end technologies, users can get info about the web designer and get in touch with the web designer.

Github: <https://github.com/Dev-Noble-coder/UI-UX-Portfolio.git>

A Sport Website

I developed and collaborated with another developer on making a sport website for a competition outside Nigeria. I used various programming languages like HTML, CSS, JavaScript e.t.c and other third party applications in producing this website.

Work Experience

Tayari Transitions (Web Development Intern) Kenya

September 2024 - December 2024

- Designed and prototyped web page layouts using **Figma**, ensuring a user-friendly experience.
- Developed the website using **HTML, CSS, JavaScript, React, and Tailwind CSS**, implementing a modern and responsive UI.
- Integrated **Framer Motion** for animations and **Tawk.to** for real-time communication.
- Set up **Firebase** for backend data storage and real-time functionality.
- Conducted a **demo launch**, gathered user feedback, and refined the UI/UX for improved usability.
- Managed version control with **GitHub** and facilitated a smooth project handover.

Cybernetiq (Ministry Of Innovation, Science and Digital Economy) (Front - End Developer Intern) Ado-Ekiti

September 2024 - Till Date

- Collaborated with the lead developer to build the website for a mother tech hub.
- Learned API integrations and their role in connecting front-end applications to backend services.
- Developed a demo version of the **FLink** app, gaining hands-on experience in building real-world projects.
- Pitched at the **Ekiti Innovation Summit**, improving my public speaking and product presentation skills.
- Began learning advanced front-end technologies to enhance my development expertise.
- Got introduced to backend development, expanding my full-stack capabilities.
- Strengthened my collaboration skills by working closely with **UI/UX designers**, ensuring seamless design-to-development workflows.

Docu Health (Startup Company) – Front-End Developer

Present

- Working as the front-end developer on the **Docu Health** project, focusing on building a responsive and user-friendly interface.
- Collaborating with the backend team to implement **API integrations** for seamless data exchange.
- Contributing to a secure cloud-based system that documents individuals' data records.
- Enhancing my front-end development skills through real-world application and teamwork.
- Due to company policies, certain project details remain confidential as directed by the CEO.

Leisure Interests.

1. Coding.
2. Playing Musical Instruments.
3. Playing Games.
